Verse 1

The future's looking dreary
Today's already gray
The helicopter's blow
and the weather's even worse

ooh

We should've seen it coming
I hear they didn't care
I'm not so sure I that I would
with my ambient despair and all

ooh
ooh

There's no more opportunity
The malls are endless pits
my family laughs together
by our warming roasting spit

ooh

Verse 2

I'm easily distracted
By anything that shines
They proved it causes damage
to our growing monkey minds

Doom pulls up in a sprinter van
But at least I'm with my friends
And you probably think it's corny
but I don't fuckin' care!

ooh

Chorus 1

Silent and Gray
They threw it away
Our time is up
But bugs will remain

Chorus 2

Fire and Hell
I can't even tell
Our bodies are dust
But love will remain
